<b>Location(s):</b>	<b>Jesup, GA 31546</b>	<b>Required Travel:</b>	<b>Minimal</b>

### Job Description

International Forest Company is seeking a Bareroot Nursery Assistant Manager for our Jesup, Georgia Nursery. The position will share the responsibility for the management and production of 35 million forest seedlings annually. Activities will include the management of the nursery's seed stratification and treatment, planting, irrigation, fertilizer / chemical application, and harvesting operations. IFCO's seedlings are positioned to be the highest quality in the industry and are distributed across the Southeast. Our efforts are focused on high quality seedlings with good survivability and growth characteristics second to none.

In this position, you'll supervise a team of three Nursery Technicians, and report to the Nursery Manager. Each season will bring new goals and challenges. During the spring, you'll be focused on field preparation and planting. During the summer, your efforts will shift to growing, fertilizing, and irrigation. In the fall and winter, you will manage the seedling harvest.

As a Nursery Assistant Manager, you'll have the opportunity to:

- Supervise work crews. Expect heavy workloads during peak production seasons.
- Utilize your computers skills for keeping crop and cultural activity records.
- Operate various tractors and nursery equipment periodically.
- Assist with budgeting, forecasting, and purchasing of materials.
- Build strong team skills by working with other nursery employees on various special projects.

### Job Requirements

Must be at least 18 years, and requires a valid driver's license. College degree in agriculture, forestry, or horticulture is desired. Strong work ethic, ability to multi-task, and work well with others. Familiarity with nursery operations is desired. Good knowledge of computer and Microsoft applications is required.
