

Is seeking a qualified candidate for the position of: **Forest Nursery Technician**

Position Title:	Bareroot Nursery Technician	Posted:	May 10, 2017
Company Name:	International Forest Company	Entry Level:	Yes
Location(s):	Jesup, GA 31546	Job Type:	Full-Time
		Required Travel:	Minimal

Job Description

International Forest Company is seeking a Bareroot Nursery Technician for our Jesup, Georgia Nursery. The position will participate in the management and production of 35 million forest seedlings annually. Activities will include seed stratification and treatment, planting, irrigation, fertilizer / chemical application, and harvesting. IFCO's seedlings are positioned to be the highest quality in the industry and are distributed across the Southeast. Our efforts are focused on high quality seedlings with good survivability and growth characteristics second to none.

In this position, you'll work on a team of three Nursery Technicians, Assistant Nursery Manager, and report to the Nursery Manager. Each season will bring new goals and challenges. During the spring, you'll be focused on field preparation and planting. During the summer, your efforts will shift to growing, fertilizing, and irrigation. In the fall and winter, you will be involved in the harvest of our seedlings.

As a Nursery Technician, you'll have the opportunity to:

- Operate forklift, farm tractors, seedling lifter, and various nursery equipment
- Operate spray-rigs and fertilizer spreaders in a safe and productive manner
- Assist with daily tasks necessary to maintain equipment, buildings and development of the seedling crop.

Job Requirements

Must be at least 18 years, and requires a valid driver's license. High School Degree or equivalent is required. College degree in agriculture, forestry, or horticulture is a plus. Strong work ethic and ability to work well with others. Familiarity with farm equipment and tractors is required. Knowledge of equipment maintenance, electrical, welding, and irrigation operation is preferred.
